Plantation FC Club Philosophy

Plantation Football Club is a non-profit organization that provides the opportunity for youth soccer players to experience the game of soccer. Our objective is to develop great soccer players along with great human beings. Players are exposed to the technical, tactical, psychological, and physical demands of the game. In addition they will also experience team-building, sportsmanship, work ethic, and leadership skills that will benefit the players for the remainder of the lives on and off the soccer field.

“Experience is not what happens to you. It is what you do with what happens to you” ~ Aldous Huxley
